 Re: 2009-319-T

This letter is to inform the Office of Regulatory Staff (ORS) that I, Eric Weaver dba Pizza Cake Moving, intend to present one Phyllis Kelley of Easley SC, Business Manager for SH Designs, an interior decorating service in Greenville SC to the Public Service Commission (PSC) as a shipper witness at the hearing for my Application for a Class E Common Carrier Certificate, date to be determined. I believe the time needed for Ms. Kelley's testimony will be less than fifteen minutes.

In addition, prior to my citation in July, I have provided moving services to numerous customers. (Permit me to assure the Commission at this point that even at significant cost and loss, I have completely suspended moving services that include the provision of a truck to residential moving customers for the purpose of transporting household goods.) These customers have all been pleased with my company's services, and some have agreed to provide testimonials on camera. I respectfully ask the Commission's permission to present limited video testimony. The time for this will be under ten minutes.

I realize the Commission is busy, and likely has untold hearings to schedule. My inability to provide full service moves to the public, even to past customers, is a source of significant loss to my business and my family. Advertising labor-only moving services produces some work, however, at a fraction of the volume that full-service marketing produced prior to my citation. I respectfully ask the Commission for the earliest possible hearing date. I am grateful for any accommodation you can make in this regard. In the meantime, I remain patiently and

Sincerely,

Eric C. Weaver
 Pizza Cake Moving Co.
